

# Toxix Wireless

Manual

## 1 Introduction

Keep your music and calls easily within reach with IFROGZ Toxix Wireless headphones. Here's how to get the most out of them.

## 2 Power and Pair

1. To turn your Toxix on, press and hold the large multi-purpose Power/Play button on the outside of the right ear piece for six seconds until the LED flashes blue and red, indicating pairing mode. The next time you turn your headphones on, they will sync immediately.
2. Ensure your device's Bluetooth® connection is on and select "IFROGZ Toxix Wireless." Complete any additional pairing steps based on your device. A tone will sound and the LED will remain blue when your device are successfully paired.
3. To turn your headphones off, press and hold the Power button for three seconds. A tone will sound and the LED will go dark, indicating that your headphones have powered off.

## 3 Play Music

1. Press the large multi-purpose Power/Play button on the outside of the right ear piece to begin playing your music.
2. While your music is playing, press the Power/Play button quickly to pause. Press Power/Play again to resume your music.
3. Press the Volume Up + or Volume Down - button to control your audio volume.
4. Press the Track Forward button > to move to the next track on your playlist. Press the Track Back button < to start a track again. Press the Track Back button < twice to move the previous track.

# 4

### Take Calls

1. Press the Power/Play button to answer an incoming call.
2. Press and hold the Power/Play button for three seconds to send an incoming call to your voicemail.
3. Press the Power/Play button during a call to disconnect.

# 5

### Charge

To get the most out of your IFROGZ Toxix Wireless headphones, we recommend charging them for at least two hours before using them for the first time. To charge your Toxix, connect the micro USB end of the charging cable to your preferred USB outlet. The LED will light red while your headphones are charging and turn blue when they are fully charged.

## Toxix Wireless Instructions

---

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1: This device may not cause harmful interference, and
- 2: This device must accept any interference received, including interference that may cause undesired operation.
